

INSURANCE DISCLOSURE

With all the changes in the insurance industry, we have discovered that employers are making changes to their dental coverage, often with NO NOTICE TO THE EMPLOYEES. This includes changes to deductibles, changes to covered services, and mid-year changes to insurance plans. While we do our best to have the most updated insurance information, it is impossible to know when any given employer will make insurance changes.

_____ I am aware that my dental insurance may change and it is my responsibility to know the details of my insurance.

_____ I am responsible for any deductible, even if I was previously unaware that my policy has a deductible.

_____ I am aware that my insurance coverage may change at any time during the years and I am responsible for any unpaid charges.
